Advantages over other methods of Alerting and Reminders:

- You can access this system from any PC on the internet, anywhere, anytime.

- You have access to all of your alerts, in a quick, single view browse screen. **(Sorting and filtering also available).**

- Your Alerts are never lost, even if you change email, mobile phone, address or even country.

- Built in **Sports event reminders**. Single click and get the alerts for the whole year.

- You can send Outlook appointments into Alert-Me via email. No mucking around with exporting or importing CSV files.

- **Alerts can be deposited directly into your Outlook Calendar**. This books your time, even if you don't have access to email.

- Through http URL interface, you can **link your business system directly into Alert-Me**,with little or no development work.

- **Alerts can be sent in by email**. Either set an alert for the future or immediately from your email.

- Businesses, Clubs and Organisations can manage their customers and members, with reminders to avoid missed appointments.

- This is the only complete package with all the reminder facilities you will ever need.
